

BEATRISE BĒRTULE

Master's Student of Cybersecurity

beatrise.bertule@gmail.com

https://beatrisebertule.github.io

Nijmegen, Gelderland, the Netherlands

EDUCATION

MSc Cybersecurity

Radboud University

2026 - present

BSc Computing Science

Radoud University

Cybersecurity Track

AI Minor

2022 - 2025

SKILLS

- PyTorch, TensorFlow
- Python, Java, C, C++
- Git / GitHub / GitLab
- Kali Tools
- Linux / Unix CLI
- Docker

LANGUAGES

- Latvian, C2
- English, C1
- Dutch, A1

RELEVANT WORK EXPERIENCE

Research Intern

2025 Sep - 2026 Feb

Digital Security Lab, Radboud University

- Conducted side-channel analysis using deep learning techniques to evaluate cryptographic device security.
- Implemented MAMBA framework to perform practical attacks on target devices.
- Preprocessed power consumption traces for training of neural networks.
- Analyzed model performance and optimized attack strategies for efficiency and effectiveness.
- Documented experimental setup, methodology, and results for reproducibility and thesis submission.

Freelance Software Developer

2025 Jul - 2026 Feb

Radboud University, Faculty of Science

- Developed a web-based learning platform enabling undergraduate chemistry students to practice and explore organic molecule structures.
- Worked with a wider development team.
- Docker, Python, Streamlit experience.

Software Developer Intern

2025 Feb – 2025 Jul

XLRIT Solutions

- Adopted the Timefold solver to address a warehouse bin-packing optimization problem and built an interactive frontend for visualizing the solution.
- Worked with a wider development team.
- Docker, React, Spring Boot, Timefold experience.

HOBBIES

- Rock Climbing
- Film Photography
- Pottery and Crochet

PROJECTS & OTHER WORK EXPERIENCE

Capture the Flag Challenges

2025 Sep - present

Radboud University, CTF Group

- Solved cybersecurity challenges across multiple categories.
- Composed clear, detailed write-ups documenting solutions and methodologies for each challenge.
- Participated in team-based and individual CTF competitions, demonstrating problem-solving under time constraints.

Student Assistant

2023 Sep - present

Radboud University, Faculty of Science

- Provided one-on-one support to students during office hours and practical sessions.
- Provided feedback on lesson flow or student engagement to help refine the course.
- Reviewed student work based on clear rubrics to ensure consistent and fair evaluation.

International Student Office

2022 Sep - present

Radboud University

- Guided applicants through each step of the admission process and explained policies in a clear, accessible way.
- Offered friendly, culturally aware support to students from diverse backgrounds.
